Dashboard – Desktop (User)

Functional Notes

- Shows a summary of the user's activity in the system.
- Users can switch between Reserved Items and Accepted Contracts.
- Cards display key information such as item name, category, reservation number, and reservation date.
- A search bar allows users to quickly find items in their list.
- Sidebar navigation allows users to move between Dashboard, Items, Contracts, and Watchlist.
- Notification and user icons in the header provide access to alerts and account options such as viewing the user profile or logging out.
